

K-Love (94.3FM) keeps me informed of international news, lets me know what events are happening in my area and strengthens me and my family morally, ethically and helps us to stay together. If K-love were to be displaced onto an LPFM it would be terrible for my family. I am able to provide myself and my family with sound music that builds community, life, relationships and never tears down or tears apart these things. This station only has the public interest in mind - they are listener supported. They are here to build community, bring joy, hope, peace into everyones lives regardless of race.

Please don't change K-love to an LPFM station.

Thank you for the time.

Jennifer McMillan
